OCTOBER 2018

New look for the bills set for 2019

Powder River Energy is excited to announce a new redesigned billing statement coming in 2019.

The new bill statement offers a modern use of color, charts, and detailed usage and billing information all in a more readable format. While the new bill will have a modern look, it still provides the same detailed information, plus additional information we hope will prove useful in managing your energy usage.

The opportunity to redesign PRECorp's monthly bill is a result of a couple different issues.

First, the Wyoming Public Service Commission updated its Rules and Regulations for all utilities in Wyoming. Among those updates were enhancements to information on the monthly power bill. The redesigned billing statement will provide those additional components and more.

Secondly, the system that generates the current PRECorp billing statement is unable to print on both sides of the paper and limits the information PRECorp would like to provide you – our member-owners.

By implementing this new bill, PRECorp will be able to utilize new technologies to communicate important information regarding your consumption, charges and other messages regarding what's going on at your cooperative. This will save on paper and

Redesign...

from front page.

postage required in the monthly bill mailings, and may save on printing and postage by eliminating the need for some bill inserts to communicate this information.

If you currently receive an invoice group bill for your multiple accounts, the new billing statement will also provide a summary page for all accounts followed by detailed account consumption, rate and other information. The new invoice group bills will also be available to view online on SmartHub at <https://precorp-smart-hub.coop>

In upcoming communications, we will provide more details on the bill redesign project and how the information provided will assist you better in making informed energy decisions. Stay tuned for upcoming samples and information on how to read your new bill statement.

Energy Efficiency Tip of the Month

Cooler temps are just around the corner! Is your home's heating system ready? Remember to replace furnace filters once a month or as recommended. If you heat your home with warm-air registers, baseboard heaters or radiators, remember to clean them regularly to increase efficiency.
