

PRECorp Mission

Powder River Energy, your electric cooperative, will deliver high quality, competitively-priced electric power and services to our member-owners, while enhancing the quality of life by providing leadership and service in our communities.

VISION 2020

PRECorp will be an innovative leader through growth in territory, services, and membership. We will be strategically aligned as we increase economies of scale, leverage opportunities for diversification, and improve team engagement. We will strive to influence regulation and political policies at all levels of government through involvement of our stakeholders. We will be an example of excellence to our cooperative network and will be the electrical power service provider, and employer of choice in the region.
