Power cost increase included in February bills

The cost of power increase from PRECorp's wholesale power supplier Basin Electric, is reflected on the bills this month (February).

PRECorp residential members using an average of 1,200 kilowatt hours (kWh) per month will see an average increase of \$6 to \$8 on their monthly bill starting this month.

The www.precorp.coop website has Rate Increase resources such as rate calculators and a deeper dive into the Basin Rate Increase.

The increase is tied to Basin's long-term efforts to increase its electric generation and distribution resources amid rising demand for power in the central and western United States.

PRECorp offers Budget Billing, Heat Rates, Energy Audits, prepaid metering, and other arrangements to help members navigate their individual needs.

Members with specific questions about the impact on their monthly cost can call PRECorp Member Service at 1-800-442-3630.
