Did You Know?

Powder River Energy has retired \$75.8 million to consumer-members since 2004 - \$13.2 million in 2020 alone.

Because electric cooperatives operate at cost, any excess revenues (called margins) are allocated and retired to consumer-members in the form of capital credits.

A capital credit retirement or "refund" will be processed in December 2020. This general retirement returns a portion of the money members paid for electric usage during select years. Many Powder River Energy members will receive a credit on their bill or a check in the mail as a result. Call 1-800-442-3630 for more information.

Energy Efficiency Tip of the Month

Energy bills can increase during winter for a variety of reasons, like houseguests, more time spent at home, and shorter days and longer nights. Small actions, like turning down your thermostat, replacing old bulbs with LEDs and washing clothes in cold water can help you save.
