

Pole testing, line patrol notice

Powder River Energy linemen and distribution design technicians are inspecting and testing poles, patrolling line, and other infrastructure throughout our service territory in Campbell, Crook, Johnson, Sheridan, and Weston counties as part of our maintenance program.

Landowners and local residents might see PRECorp personnel working within power line rights-of-way or using binoculars in their area.

PRECorp personnel can provide identification on demand if there is a question about their presence on your property.

Call 1-800-442-3630 if you have any additional questions.

Energy Efficiency Tip of the Month

Avoid placing items like lamps and televisions near your thermostat.

The thermostat senses heat from these appliances, which can cause your air conditioner to run longer than necessary.

Idle Line Retention options

The Idle Line Retention process provides a rate structure that allows members to retain idle lines that they intend to re-energize in the future, while contributing to the maintenance, depreciation and property taxes associated with the idle line.

In this designation, the member may have the meter disconnected and continue to pay a minimum charge to ensure the electric line is left in place. Transformers and secondary line can be removed at PRECorp's option.

If you have an idle service on your property that you are not paying the Idle Line Retention rate for, PRECorp will contact you to find out whether you have future plans for this service or would like to have it removed.

To retain the idle line, you will be required to pay the idle line retention charge associated with the type of service it was when energized.

The monthly rates are:

- Residential/Seasonal: \$15**
- Irrigation: \$15**
- General Service: \$18**
- General Service CBM: \$35**
- Large Power: \$79**
- Large Power CBM: \$100**

For more information, contact the PRECorp Member Service Department at 1-800-442-3630.
